

# Middle Of The Night

Charlie Robison

Well, there's a woman in the corner sittin' all alone  
The barkeep's talkin' on the bar payphone  
There's a couple on the dance floor, trippin' on the line  
Well, tell me why I can't find the door  
But in the middle of the night gonna be alright  
The last call still ain't near  
But in the middle of the night gonna see the light  
Would wanna be any place but here  
Blue ball betty and chainsaw bill  
A June bug crawlin' on the window sill  
Playboy pictures on the bathroom wall  
Can you tell me why I can't make sense of it all?  
In the middle of the night gonna be alright  
The last call still ain't near  
But in the middle of the night gonna see the light  
Would wanna be any place but here  
I fell in love about fifteen times  
Got a car full of dents, face full of lines  
Number sixteen just walked in  
Better sit up straight, my momma'd be proud  
In the middle of the night gonna be alright  
The last call still ain't near  
But in the middle of the night gonna see the light  
Would wanna be any place but here
