

One Of Us

Charlie Simpson

You're a fire in the sky and you don't even notice
And when I'm losing sight it's you that gives me focus
I don't want to fall asleep cos every dream pulls me away from
you
All of the moments I don't want to lose

I want to say I gave it all
With all the time we've got
Cos when you're grey and I look old
We'll never have enough
Unless we go out, unless we go out
Together, together I know
That one of us, one of us
Will just end up here alone

We were hurricanes like lightning into thunder
And some things never change but somethings you can't run from
I don't want to fall asleep cos every dream pulls me away from
you
All of the moments I don't want to lose

I want to say I gave it all
With all the time we've got
Cos when you're grey and I look old
We'll never have enough
Unless we go out, unless we go out
Together, together I know
That one of us, one of us
Will just end up here alone
End up here alone

I want to say I gave it all
With all the time we've got
Cos when you're grey and I look old
We'll never have enough
Unless we go out, unless we go out
Together, together I know
That one of us, one of us
Will just end up here alone
End up here alone
