

Believe in Love

Charlie Worsham

I believe in working hard
From the Texaco star on my papaw's shirt
I believe in the Lord above
'Cause my sweet mama took me to church
I believe in the power of good songs
And good dogs 'cause of my old man
And I believe that life's what happened
While we're making other plans

And you
You make me believe in love
You
You give me a reason to trust that there's
A happy ever-after
If it's with you, that's enough
Baby it's true
You make me believe
Make me believe in love

I believe our better days
Are up ahead and not behind
I believe we'll have our struggles
But they'll get sweeter with time
I believe everything I give you
You'll take to heart and keep it safe
And I believe the time we spent apart
Was well worth the wait

And you
You make me believe in love
You
You give me a reason to trust that there's
A happy ever-after
If it's with you, that's enough
Baby it's true
You make me believe
Make me believe in love

And you
You make me believe in love
You
You give me a reason to trust that there's
A happy ever-after
If it's with you, that's enough
Baby it's true
You make me believe
Make me believe in love

I believe that raising babies
Is the most important thing we'll do
When I'm eighty three and gray
I'll still be crazy over you
I believe that the story we give this world
Lives on long after us
And you, you make me believe
Make me believe in love
