

# Old Time's Sake

Charlie Worsham

I'm on my third one  
So I've got a loose tongue  
But if you feel thirsty, I'll buy you one too

At the risk of a cliché  
Would it be okay  
If we sit together and talk for a few?

Now I usually get home  
Before I get too gone  
I don't think stayin' would be a mistake

I love this song too  
Could I dance with you?  
Let's try something new  
For old time's sake

If I had a nickle  
For every George Dickel  
Silver-tongued promise  
Made in this bar

We'd be sittin' and sippin'  
On somethin' expensive  
Makin' an' killin' of desperate hearts

If you didn't know better  
You'd think I was clever  
Castin' my lines in this mean old lake  
But I ain't here fishin', I'm just kinda wishin'  
We try somethin' new  
For old time's sake

It's gettin' on late  
We're gettin' on great  
It'd be easy to take this way too far

You know I want to  
But I think I like you  
Enough to just walk you out to your car

Innocent, no  
I just know how it could go  
If we jump in too quick so I'm willin' to wait

Well this might sound crazy  
Old-fashioned, maybe  
But let's try somethin' new  
For old time's sake

Let's try somethin' new  
For old time's sake
