

## Sorrowsong

Charon

This all you kept inside  
Once you gave it all  
Sorrow and despair  
Took me where I belong  
She was all I create  
She was all I craved  
Sorrow and despair  
Made me feel this way

This way I'll choose like you  
This heart I'll cease like you

White sheets around  
Rose in her hand  
And face alike she never had to cry  
This all I need to tell  
This all I had to weep  
Tomorrow comes with peace  
And peace is what I need  
Inside my heart it rains  
I crave no more to say

This way I'll choose like you  
This heart I'll cease like you

White sheets around  
Rose in our hands  
And faces like we never had to cry  
Rain fades today  
It rained all our lives  
Inside our hearts we never had to die
