

# I NEVER EXISTED

Chase Atlantic

You know I love it when you say it's all for me  
I know you're lying but it don't make a difference  
And I know you ain't praying when you get on the floor for me  
It's how I know that you've been feeling the distance

But it's temporary  
Oh it's necessary  
So let me show you just a couple little things you can do when  
you're with him

I know you always say you'd give him away for me  
But I ain't never been the one for commitment  
I'm gonna leave you either way if you stay with me  
So go and tell him that I never existed

I hope you're ready to be taking the fall for me  
Cause we can do it if you're willing to risk it  
And I don't wanna hear it if it isn't involved with me  
Cause your relationship is none of my business

But he's ordinary  
You need more than that  
So let me show you just a couple little things you can do when  
you're with him

I know you always say you'd give him away for me  
But I ain't never been the one for commitment  
I'm gonna leave you either way if you stay with me  
So go and tell him that I never existed

But don't think I'm staying, I'm just here for the confessional  
So you can take the pressure when he finds out  
So go and take me off your wishlist  
Gone cause I'm keeping my distance  
So go and tell him that I never existed

I know you always say you'd give him away for me  
But I ain't never been the one for commitment  
I'm gonna leave you either way if you stay with me  
So go and tell him that I never existed
