

Bedroom

Chase Rice

I know what it means when you slip on that dress
And I know what tequila does to your head
And I know that smile and what it's about
I'm callin' it now

We got a pretty good shot at makin' it into the drive
And, baby, maybe if we're lucky, we'll make it inside
You know we'll be droppin' cotton and stumblin' over the couch
Yeah, we'll be shakin' these walls, breakin' everything in this house

If I know you the way you're lookin' at me that way
Bet we don't even make it halfway down the hallway
But once you get me how you get me
Once I got you in my hands
That bedroom don't stand a chance

This place closes at two, we'll be gone by then
Slippin' into the car, dippin' out on friends
That fifteen minute ride, we'll make it in five
If we don't park it by the roadside

We got a pretty good shot at makin' it into the drive
And, baby, maybe if we're lucky, we'll make it inside
You know we'll be droppin' cotton and stumblin' over the couch
Yeah, we'll be shakin' these walls, breakin' everything in this house

If I know you the way you're lookin' at me that way
Bet we don't even make it halfway down the hallway
But once you get me how you get me
Once I got you in my hands
That bedroom don't stand a chance, nah
That bedroom don't stand a chance

They can call us crazy, but we're crazy in love
Baby, if I know
We got a pretty good shot at makin' it into the drive
And, baby, maybe if we're lucky, we'll make it inside
We'll be droppin' cotton and stumblin' over the couch
Yeah, we'll be shakin' these walls, breakin' everything in this house

If I know you the way you're lookin' at me that way
Bet we don't even make it halfway down the hallway
But once you get me how you get me
Once I got you in my hands, girl
That bedroom don't stand a chance
Nah, that bedroom don't stand a chance
That bedroom don't stand a chance

I know what it means when you slip on that dress
And I know what tequila does to your head
