Ready Set Let's roll Let's roll

Damn pretty girl you went done it again
You've gone and turned your sexy all the way up to 10
I've never seen a side ride seat looking so hot
Baby, you rock, hit the spot like a fireball shot
You've got me all high, head spinning around and around
I'm down if you're down to burn down this town

Ready set let's roll,
Ready set let's ride
Get your little fine ass on the step
Shimmy up inside,
Just slide girl by my side girl
Yeah, we can run this town
I can rock your world
We can roll 'em down fog 'em up
Cruise around get stuck pedal to the metal
'Till the sun comes up
I made a deal with the man on the moon
He's gonna put in some overtime, we've got all night
Ready set let's roll
Ready set let's ride
Ready set let's roll

Where the good years and good times meet Girl we can rev it up right 'til we overheat Just forget about the time, get your lips on mine Gotta kiss you, get to know your smile On your mark, get set

Ready set let's ride

You got my heart bum bumping When I'm pulling up into your drive Let's hit it ninety to nothin', A couple kids running into the night

Ready set let's ride Get your little fine ass on the step Shimmy up on inside
