

We Goin' Out

Chase Rice

"Yo Chase, what's up man? What you doing?"
"C'mon man, what the hell you think I'm doing?"
Heh, I'm going out"

We got the crew in the crew cab
Rockin' that rebel flag
All hats back like a redneck rat pack
Boys looking cool
Blowing smoke from the Mary Jane
Girls hair down, frayed outs
Brought that 'A' game

Kick back and watch how we do
Like 'Project X'
We're next on your YouTube
Yeah

We goin' out
We goin' out
We got our eyes blurred right
And the weird up loud
We goin' out
Yeah, we ignite the night in this sun burnt town
Locked and loaded
Rocked and rolling
Driving our shit just like we stole it
All night
Good time
Damn right
We goin' out

It's going down like a whiskey waterfall
So raise your cup, up, up
For a rockstar roll call
The Yeti's low quick
Damn right, we're killing it
Cole's rolling in
Looks like we'll be chill in' it

We goin' out
We goin' out
We got our eyes blurred right
And the weird up loud
We goin' out
Yeah, we ignite the night in this sun burnt town
Locked and loaded
Rocked and rolling
Driving our shit just like we stole it
All night
Good time
Damn right
We goin' out

Now they say lightning don't strike twice
But we here tonight, ain't we?

We goin' out

We goin' out
We got our eyes blurred right
And the weird up loud
We goin' out
Yeah, we ignite the night in this sun burnt town
Locked and loaded
Rocked and rolling
Driving our shit just like we stole it
All night
Good time
Damn right
We goin' out
We going out, out, out, out, we going out
We going out, out, out, out, we going out
We going out, out, out, out, we going out

What do you say dude? You down?
Hell yeah, count me in for that man
