

# The King Has the Power

Chastain

He lives in a castle  
Knows the secrets of the damned  
The hours of the saints  
Lie cursed from his land

He seems to have no fear  
He's like the...  
The king has the power  
The king has the power

Somewhere in time he found  
He could not die  
The king has the power

The power to doom  
The power to hate  
With a wave from his hand  
He thumbs his fate

He seems to have no fear  
He's like the...  
The king has the power  
The king has the power

He praises you to hear himself...  
A thousand years ago a different fate

The king has the power  
The king has the power  
Somewhere in time  
He learned he could not die  
The king has the power
