

Apart

Chastity Belt

How long till
You say what you want?
Dancing around
Our scars

Can't move beyond
The should
And should nots
We'll stay apart

How long till
I say what I want?
Hiding behind
Broad lines

Can't move beyond
The should
And should nots
We'll stay apart

Apart
Apart
Apart
Apart
Apart
Apart
Apart
Apart

Did I decide
To let my pride
Take hold
To let my feelings slide
(Forcing me to read between your words)
My life unfolds
Indecision or out
(Feelings woven into what's unspoken)
I wanna let it be the way it is
(Forcing me to read between your words)
To make peace
With my past
(Feelings woven into what's unspoken)
It's never too late now
She's too far gone
It's too late now
She's too far gone
