

Seattle Party

Chastity Belt

Your tattoos are so deep
They really make me think
And your life has been so rough
You've been through so much

We are having a party tonight
We are inviting our best friends
So we can have a good time

Are there others
Out there
Who think like us

Are there others
And are they having fun
I think they're having fun
I think they're having fun

If you dance if you dance
No girl will give you a chance
You're a cool guy
You won't look us in the eye

We are having a party tonight
We are inviting our best friends
So they can have a good time

Are there others
Out there
Who think like us

Are there others
And are they having fun
I think they're having fun
Are we having fun?

Are we having fun?
Are we having fun?
