

## Split

## Chastity Belt

What if I split right down  
Down the middle of it all  
What if I split right down  
Down the middle of it all

Will you  
Will you tell me when it's over?  
And until then I will keep my eyes closed

You take yours and I'll take mine  
They took mine so I'll take yours  
What if you just take it all, both sides

Sink  
To the bottom and you'll find  
You are just another shark

Try to talk on the brink of sleep  
I've got nothing  
Shutting down 'cause I might have to think  
I've got nothing

You don't know how sharp your teeth are  
Until you bite  
If they'll grow back when you loose them  
Until you try
