

9:30am

Chelsea Grin

Every word running through my head, but there's nothing to say
I lost everything I loved now I'm dead inside
Everything is gonna be the same (No!) Everything is gonna be OK
(No!)

There's nothing left to hide because nothing can save my life

I'm fucked up

Burn everything
So you don't feel this fucking pain
And when the night feels too dark
Embrace the flames and fall apart with me

You will never see the light of day

Every word running through my head, but there's nothing to say
I lost everything I loved now I'm dead inside
Everything will be the same (No!) Everything will be OK (No!)
There's nothing left to hide because nothing can save my life

I'm fucked up

Burn everything
So you don't feel this fucking pain
And when the night feels too dark
Embrace the flames and fall apart with me

Shut up and listen to me
Right now
Shut up and listen to me
Right now
