

Eternal Nightmare

Chelsea Grin

Welcome to your eternal nightmare
Welcome to your eternal nightmare

My child, there is no other way
Every sight you never wanted to see
Everything you never wanted to be
Closed eyes, but you can not erase
Every sight you never wanted to see
Everything you never wanted to be

To be

Welcome to your eternal nightmare
Welcome to your eternal nightmare

Come with me
We'll sink into the soil, beside the maggots
All we need
Inside the gnashing of teeth, under the static

Now I can see all the misery
I can feel the night closing in on me
Closing in on me
Now I can see all the misery
Under my blood red veil
In darkness we shall lay

In darkness we shall lay

Come with me
We'll sink into the soil, beside the maggots
All we need
Inside the gnashing of teeth, under the static

Welcome to your eternal nightmare
Welcome to your eternal nightmare
