

## 16 Psyche

Chelsea Wolfe

I've spent, in different beds  
Many moons  
And that's the way I prefer it

I can't  
She said, I'd save you but I can't hide

I feel it crawl up my legs  
Let me wrap you up in these thighs  
It gets me out of my head again

I can't  
She said, I'd save you but I can't love

16 Psyche  
Coma tail quivering  
Knew all long

I can't  
She said, I'd save you but I can't  
She said, I'd save you but the world's bent  
She said, I'd save you but I can't
