

# Humanized

Chenao

If no-one ever sees it is it real?  
Like all the perfect flowers in a field  
I'm lost to bloom in black and white  
So cover me in colour baby

Humanize, humanize, humanize me  
I'm not alive - not until you can see me  
Humanize, humanize, humanize me  
'Coz when it's you and I  
I'm humanized

No-one told me love could be a beast  
Born within a cage and then released  
So rescue me, from make-believe  
Come and make me real baby

Humanize, humanize, humanize me  
I'm not alive - not until you can see me  
Humanize, humanize, humanize me  
'Coz when it's you and I  
I'm humanized  
I'm humanized  
I'm humanized  
I'm humanized

All I need is one exhalation  
Come and breathe your life into me  
One heart beat a single sensation  
Come and breathe your life into me

Humanize, humanize, humanize me  
I'm not alive - not until you can see me  
Humanize, humanize, humanize me  
'Coz when it's you and I  
I'm humanized  
I'm humanized  
I'm humanized  
I'm humanized
