

# Made That Way

Chenoa

I don't get the speed of modern life  
Say hello then say goodbye  
When I do, it's "Hello for life"  
'Coz I'm just made that way  
Burning feelings turn to ice  
Love that breaks up in one night  
But when I decide I decide for life  
'Coz I'm just made that way

I'm gonna kiss you for the rest of my life  
Cos when I kiss you my lips make a promise  
I'm gonna hold you for the rest of my life  
Cos when I hold you my heart makes a promise  
Fort the rest of my life  
Fort the rest of my life  
Fort the rest of my life  
Cos when I kiss you my lips make a promise

I'm old fashioned in this way  
I've chosen once won't choose again  
I'll work it out than just walk away  
'Cos I'm just made that way  
Sometimes I may need some space  
Everyone needs it one day  
But don't you fret I'm here to stay  
'Cos I'm just made that way

I'm gonna kiss you for the rest of my life  
Cos when I kiss you my lips make a promise  
I'm gonna hold you for the rest of my life  
Cos when I hold you my heart makes a promise

And it's simple and easy what I'm feeling  
When I'm sleeping, my dreams make a promise  
Seeing's believing cos I know  
When I see you my eyes make a promise  
For the rest of my life

I'm gonna kiss you for the rest of my life  
Cos when I kiss you my lips make a promise  
I'm gonna hold you for the rest of my life  
Cos when I hold you my heart makes a promise  
Fort the rest of my life  
Fort the rest of my life  
Fort the rest of my life  
Cos when I kiss you my lips make a promise
