

Just You

Cherryholmes

I can't make you think what you don't wanna think
And I can't make you take what you don't wanna take, Babe
And I can't make you stay when you don't wanna stay, unless it's
away

(chorus)

'Cause it's all up to you
Just make up your mind, I'll let you decide
Just you, just you and nobody else
You need to do it yourself, Babe

'Cause I can't make you want to want to have me anymore
You've gotta decide, you need to make up your mind
I can't make you say, what you don't have to say
And I can't make you ask for what you don't feel you lack for
And you don't need to try to think up a lie to tell me goodbye

(chorus)

(bridge)

Well, if you love me then don't make me wonder
If you don't, then don't keep me under the suspense
It gets so hard for me to take each day
Do I need to go away?

(chorus)
