

# The Family Way

Chesney Hawkes

It aint so easy when youre  
Doing things the family way

You can change your mind but youll always find  
That the chance is there for the taking  
Dont you know, do you care  
For the love that we have always been making  
And its not a sin  
Thought it always bring  
The punishment ever after  
Run away from the pain  
Catch a ride into a world full of laughter

This time weve come to let it show  
I know that we can watch it grow

I am my fathers son  
You are your mothers daughter  
I know our time will come  
Dont care what they say  
They tell us our flesh is weak  
Our blood is thicker than water  
It aint so easy when youre  
Doing things the family way

Well it feel so good  
And we know it should  
But its only when were together  
In a way we belong  
In a world that gives but its never a pleasure

This time weve come to let it show  
I know that we can watch it grow

I am my fathers son  
You are your mothers daughter  
I know our time will come  
Dont care what they say  
They tell us our flesh is weak  
Our blood is thicker than water  
It aint so easy when youre  
Doing things the family way

If I was blinded then, you made me see  
I would do anything if youd share it all with me

I am my fathers son  
You are your mothers daughter  
I know our time will come  
Dont care what they say  
They tell us our flesh is weak  
Our blood is thicker than water  
It aint so easy when youre  
Doing things the family way
