

2012

Chester See

Something doesn't feel right  
Purple fire in the sky  
Twenty thousand years ago  
They predicted a light show  
Humans fear the animals  
Our world is a cannibal

Oh, the lights  
Take me away into the night  
When I suddenly realize  
The time is now  
There's nothing to lose  
With twenty minutes to save ourselves  
Twenty to 2012  
Twenty to 2012  
Twenty to 2012

Goodbye

Watch from the mountains  
Or kill with the lions  
Wait till it's over  
Waves crashing from a star  
See you on the other side  
Afraid we're going out tonight

Oh, the lights  
Take me away into the night  
When I suddenly realize  
The time is now  
There's nothing to lose  
With twenty minutes to save ourselves  
Twenty to 2012  
Twenty to 2012  
Twenty to 2012

Goodbye

Oh, the lights  
Take me away into the night  
When I suddenly realize  
The time is now  
There's nothing to lose  
With twenty minutes to save ourselves  
Twenty to 2012  
Twenty to 2012  
Twenty to 2012

Goodbye

We-we do it again! Bass!

Twenty to 2012
