

# I Keep Waiting

Chester See

Days they turn to weeks  
It's still the same  
Love songs sing the words I'll never say  
Time she screams you're such a fool  
But I'm just waitin' waitin' on my cue  
One where time just stops  
And for the moment we get lost  
There's something in the air we cant resist  
She starts to close her eyes  
I lean in and I close mine  
The only thing that is left to do is kiss  
I keep waiting  
For moments like this  
I keep waiting  
Weeks they turn to months still the same  
Time she's traveled on but I remain  
Struggling with the fear I'll be denied

But I'm just waiting for the timing to be right  
Like one where suddenly  
She starts to notice me  
The slightest of her smile says this is it  
I take her by the hand  
Her touch helps me understand  
The only thing that's left to do is kiss  
I keep waiting  
For moments like this  
I keep waiting (4x)  
Who-ooo  
I keep waiting-oooo  
Months they come and go  
It's still the same
