

# Should I Kneel or Should I Stand?

Chester See

Friday morning, got a big game tonight  
He's the high school quarterback of his football team  
But he's been up late with some things on his mind  
So he call his grandpa and share what he's been wondering

"Grandpa, I don't wanna make you mad  
But tonight during the anthem, I don't know if I'll stand  
I'd still think of those who've died and served  
But if I don't take a knee, I know my team will be hurt"  
(I don't know)  
Should I kneel or should I stand?  
And he said

Just as long as you're holding somebody's hand  
Cause after all the noise we'll still be, all in this together  
And yes, that flag mean's a lont of things, but will you mean to make it bet  
ter?

Some yegarts have passed, he's found the love of his life  
Thinkin' that it's time to ask her: You will marry with me?  
He's so nervous wondering how she'll reply  
So he hops on the phone and gives his grandpa a ring

Grandpa, I just don't know waht I should do  
Will I say the right things?  
Will I make the right moves?  
I just wanna be the best for her life  
She's perfect for mine I've gotta make her my wife

Should I kneel or should I stand?  
And he said

Just as long as you take her by the hand  
'Cause after all the crying you two will be, all in this together  
And yes, that ring mean's a lont of things, make it mean those things foreve  
r

White picket fence, two boys, a dog and a home  
But grandpa getting sick was never part of the plan  
Sleeps next to grandpa so he won't be alone  
Grandpa call his over, he keels down and takes his hands

Hey look at you, this time you didn't even ask  
You normally never know, if you should kneel or should stand  
With his hands in his and tears in his eyes  
Says: Look at this here moment, you've done everthing righth

Then he squeezed his grandson's hands and said

Make sure those boys of yours, they always understand  
After all the nonsense life may bring, we're all in this together  
And I'll leave this world as happy as can be  
Knowing those boys will learn a thing from me  
Every time you teach them love
