

# You're Not the One

Chester See

I've never been so sure of anything  
When you're next to me, I finally feel complete  
I know for sure, you're all I'll ever need  
And I'll never stop

Loving you more with each breath that you take  
This promise I never will break for you  
Mhhmm

But you're not the one  
'Cause you don't wanna be  
I might have chosen you  
But you chose differently  
You might make me feel whole  
I don't make you complete  
I will grow old with you  
But you've grown tired of me  
You're not the one  
'Cause you don't wanna be

So I'll let you go as hard as it is for me  
I'll never know, what this was supposed to be  
If you're ever alone, I hope that you think of me  
'Cause I'll never stop

Loving you more with each breath that I take  
These feelings inside never change for you

But you're not the one  
'Cause you don't wanna be  
I might have chosen you  
But you chose differently  
You might make me feel whole  
I don't make you complete  
I will grow old with you  
But you've grown tired of me  
You're not the one  
'Cause you don't wanna be

If you ever feel, the way that I do  
I hope that it feels the same way too  
'Cause I only want what is best for you  
And I hope that he gets on one knee  
Just wishing it could've been me

You're not the one  
'Cause you don't wanna be  
I might have chosen you  
But you chose differently  
You might make me feel whole  
I don't make you complete  
I will grow old with you  
But you've grown tired of me  
You're not the one  
'Cause you don't wanna be
