

I Came Here For You

Chicane

Where we go, we go
Where we go away
We were gonna be
You'll be there to stay
Where you'll go to be
Never go away
You will never be
You'll be here to stay

Where we go to be
Never go away
You will never be
You were here to stay
Where we go to be
Lend me your stars
Lead me there to go
We'll never go away
We were here to stay
We were go away
I will let you know
You were here alone

Where we go, we go
Where we go away
We were gonna be
You'll be there to stay
Where you'll go to be
Never go away
You will never be
You'll be here to stay

Where we go to be
Never go away
You will never be
You'll be there to stay
Where we go to be
Let me open arms
Lead me there to go
Never go away
