

Make You Stay

Chicane

Watch the setting sun afterglow if you say that you will
At the window I watch you leaving, I'll be waiting still

If there's nothing here to make you stay
And this place is holding you back, I won't stop you
If there's nothing here to make you stay
And this place is holding you back, I won't stop you

If there's nothing here to make you stay

When you need me, you won't answer me
When you need me, you won't answer me

And this place is holding you back, I won't stop you
If there's nothing here to make you stay
And this place is holding you back, I won't stop you
If there's nothing here to make you stay

Afterglow if
Afterglow if
Afterglow if you
