

Take me to the dark side of the moon  
I've been there before but not with you  
Don't give it dimes, just hold me close  
I'm open minded, take me somewhere I don't know  
Upper, higher, down below  
Ooh

Here it feels like I can rave  
Here it feels like I can lose myself  
I've never been to nirvana  
I think you know what it is  
You take me into nirvana  
I'm at the door ready, oh

Here it feels like I can taste  
Now I found my place where no one else  
I've never been to nirvana  
I think you know what it is  
You take me right to nirvana  
I'm at the door ready, oh

Here it feels like I can rave  
Here it feels like I can lose myself  
I've never been to nirvana  
I think you know what it is  
You take me into nirvana  
I'm at the door ready, oh

See me rising through the garden of your mind  
I dig deep to see what's there to find  
I don't need diamonds  
Show me your soul  
Be open minded, you know where I wanna go  
Upper, higher, down below  
Ooh

Here it feels like I can rave  
Here it feels like I can lose myself  
I've never been to nirvana  
I think you know what it is  
You take me into nirvana  
I'm at the door ready, oh

Here it feels like I can taste  
Now I found my place where no one else  
I've never been to nirvana  
I think you know what it is  
You take me right to nirvana  
I'm at the door ready, oh

Here it feels like I can rave  
Here it feels like I can lose myself  
I've never been to nirvana  
I think you know what it is  
You take me into nirvana  
I'm at the door ready, oh
