

# Rainbow

Chicane

A rainbow when the world began  
A rainbow over my garden  
A rainbow when the word will end  
Right back to where it started  
A rainbow over the carnival  
Like a promise for the broken hearted  
A rainbow to get it again  
Right back to where it started  
A rainbow when the world began  
A rainbow over my garden  
A rainbow when the word will end  
Right back to where it started  
A rainbow over the carnival  
Like a promise for the broken hearted  
A rainbow to get it again  
Right back to where it started  
It started  
It started  
It started  
It started

Back before we were given names  
We were our brothers, we were all the same  
Now we know who's proud  
Everyone is pourer  
Everyone is louder  
Everyone is sure  
We returned from where we came  
Trading our keys and our given names  
Now we've always known  
Everyone is here  
Everything is forgot  
And everything is clear  
Clear  
Clear

A rainbow when the world began  
A rainbow over my garden  
A rainbow when the word will end  
Right back to where it started  
A rainbow over the carnival  
Like a promise for the broken hearted  
A rainbow to get it again  
Right back to where it started
