Assassinator 13

I'm gonna make my way to the deep underground Find myself a come down fix Kicks get me down like a stone in my crown I'm gonna make my way to the wrong side of town Found myself a come back kid To rid these bones of the dirty sounds

Met a girl, on the bus She had asked to take me on So lick your ticket and take a ride Sex is fun when you are high Ride on ride on ride on

I'm gonna make my way to the deep underground Find myself a come down fix Kicks get me down like a stone in my crown I'm gonna make my way to the wrong side of town Found myself a come back kid To rid these bones of the dirty sounds

Time to time you feel you've found But more and more you long to score So light, your mouth and shoot your brain If just to feel the devil's pain Ride on ride on ride on

Alcohol numbs the soul It doesn't stop you getting old So ask the answer to your pain Oh the sweet bright red chariot that burns away Ride on ride on ride on
