

Seasons Changing

Children Collide

Everybody's hooking up for the winter
They don't want to be alone in the cold
We all burnt ourselves out in the summer
Wasted, wasted the spring of our lives
Season's changing regrets on the other side
Fall away and climb to safety
Season's changing regrets on the other side
Fall away and climb to safety

Everybody's hooking up for the winter
They don't want to be alone in the cold
We all burnt ourselves out in the summer
Wasted, wasted the spring of our lives
Season's changing regrets on the other side
Fall away and climb to safety
Season's changing regrets on the other side
Fall away and climb to safety

Season's changing regrets on the other side
Fall away and climb to safety
Season's changing regrets on the other side
Fall away and climb to safety
