Impending Doom

Impending doom, can't escape Pitch black at the lake The snow is falling, can't escape The evil approaches, I can't save you These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell Jagged stairs leading nowhere The clock is staring at me Running away from the pain The evil approaches, no one to save me These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell, hell From this hell Have you ever seen blood in the moonlight? It appears quite black Have you ever seen spiders crawling on the grave? On the grave The grave that gave The grave that gave us the fear of loneliness That turned us into hellions We're like slugs in the sun, tearing us apart These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell These problems don't have solutions We're rotting inside this cell Our bodies are like a prison Only death will save us from this hell Only death will save us from this hell
