

Being In Love

China Crisis

Used to be love that bore us
There used to be love
There used to be so much feeling
Of being in love

And you know how that feels
Head over heels
There used to be so much feeling
Of being in love

How that feels
How that feels

(Take your time) Love turns to stone
(Love isn't a crime) If left untold
(Head over heels) Lo and behold

Used to be smiling faces
Every day
So many smiling faces
Along the way

And you know how that feels
Hot on the heels
There used to be so much feeling
Of being in love
How that feels
How that feels

(Take your time) Love turns to stone
(Love isn't a crime) If left untold
(Head over heels) Lo and behold

Take your time
Love isn't a crime

(Take your time) Love turns to stone
(Love isn't a crime) If left untold
(Head over heels) Lo and behold
And you know how that feels

Take your time) Love turns to stone
(Love isn't a crime) If left untold
(Head over heels) Lo and behold
And you know how that feels
