

Scream Down At Me

China Crisis

If you could see, what you want to see
Would you stop fighting
Why should you?

Out in a field, in an open field
And I talk of my friend
I wish I knew more!

I should say what I mean
I should mean what I say
I should say what I mean, say what I mean, say what I mean!

I shouldn't be falling to their questions
They musn't listen at all
Or do they?

I can't believe in myself, I should have been there
I've no reason at all
I've no reason!

I should say what I mean
I should mean what I say
I should say what I mean, say what I mean, say what I mean!

Scream down at me!
Scream down at me!

They got you working
They got you working day and night!
(scream down at me!)

I should say what I mean
I should mean what I say
I should say what I mean, say what I mean, say what I mean!

Scream down at me!
