

## Trading in Gold

China Crisis

Trading in gold  
Trading in my old man's gold  
Laughing at the serious side  
And playing with fire

Arrogance pays  
Dancing wild and crazed  
Fortunate to be that way  
No slave to reason

I do believe  
You've a right to know  
The urgency  
Doesn't always show  
I see your smiling, smiling faces  
Not in every town  
Some are up so far  
They will never come down

Make no mistake  
Everybody wants and takes  
Stupid if you go against  
Natural science

I do believe  
You've a right to know  
The urgency  
Doesn't always show  
I see your smiling, smiling faces  
Not in every town  
Some are up so far  
They will never come down

Open the door  
Let yourself in  
C'mon open the door  
And let yourself in
