

## I Remember You

Chixdiggit!

I remember you  
The best friend of the girl I dated  
I'm the guy that you forgot you hated  
Let's see what's going on  
She moved to Montreal  
And found religion with some creepy pastor  
If you see her could you maybe ask her  
About my Vuarnet shirt?  
We had lots of fun while you grimaced from the sides  
We got good at love and you got good at rolling your eyes  
Could it be Christine  
They removed more than your spleen  
I think of her a lot  
I wonder if she thinks about me  
Is there a chance that we could remake history?  
Well you say probably not  
Well that's not too surprising  
You thought I knocked her up  
But it ain't just me that's bad at swimming  
You got a lot of stuff to lose by winning  
So you don't even try  
We had lots of fun while you grimaced from the sides  
We got good at love and you got good at rolling your eyes  
Could it be Christine  
They removed more than your spleen
