

I Wanna Hump You

Chixdiggitt!

Well I want to hump you that's the only thing I want to say
I want to hump you every night and every day
So don't get mad at me cause that's the only thing I want to do

'Cause listen up baby, this song's for you
Let's rock!

I want to hump you
I want to hump you
I want to hump you
I want to hump you

You worked at orange Julius but it's also at dairy queen
You're the one with the dark hair and the eyes colored aquamarine

You smiled at me when I ate my Peanut Buster parfait
Well a girl like you, is more than just a babe
Here's why!

I want to hump you
I want to hump you
I want to hump you
I want to hump you

Watching you change those prices is the most erotic thing I've ever seen

Since I went to the french maid and saw the ping pong ball shooting queen

I got an autographed picture and a pubic hair on a ball

I want to hump you the best chick in the mall
I want to hump you
I want to hump you
I want to hump you
I want to hump you
