

You've been tryin' to tell me
You've been tryin' to out me
You've been tryin' say stuff
I've been tryin' to pray up
Why you tryin' to pray now?
Pray it all away now
This shit's tangle mess up
Get out of my head
Oh

Cause I don't play like that, play like that
I don't need all that, have you back
Oh now I'm moving on, now I'm moving on
Moving on, now I'm moving on
Why you play like that, roll like that
You hold me back let go of that
Moving on, now I'm moving on
Moving on, now I'm moving on

Now Imma fall you back into the galaxy
Imma fall you back into the galaxy
Imma fall you back into the...
Imma fall you back into the galaxy

Fly with the stars yeah we'll be here for a while
Seein' that my love only for you
Wonderful night won't you float for a while
Leave all my love for you, love for you

You've been trying break me
You've been tryna' shake me
But like the earth I'm steady
I won't lose it
And time and time again you say my name
But if you wanna go we can take it up to space
Baby darling you should be ashamed
Imma have you walkin' deep into the milky way

Cause I don't play like that, play like that
I don't need all that, have you back
Moving on, now I'm moving on
Moving on, now I'm moving on
Why you play like that, roll like that
You hold me back let go of that
Moving on, now I'm moving on
Moving on, now I'm moving on

Now imma fall you back into the galaxy
Imma fall you back into the galaxy
Imma fall you back into the...
Imma fall you back into the galaxy

Fly with the stars yeah we'll be here for a while
Seein' that my love only for you
Wonderful night won't you float for a while
Leave all my love for you, love for you
