Keep Me from Loving You

Chris Cagle

Remember how time used to drag on,
Summer couldn't get here fast enough
You made A's and B's
I was C's and D's
Your daddy hated me,
Cause you were into me
Nobody'd ever be good enough for his little girl

Had a fast car,
Had a hard head,
Didn't give a damn what he said
I was gonna do what I was born to do
No cold stare,
No cussing,
Nobody, no nothing
Is gonna keep me from lovin' you

Looks like your daddy was the easy part,
How could we have known how hard it'd feel
Just to stay in love
I thought it'd be tough
We did some growing up,
Watch some friends give up,
Life's thrown it all at us
But here we stand

Got a long road,
Mountains up ahead,
Don't give a damn what the world says
I'm gonna do what I was born to do
No turnin',
No runnin',
Nobody, no nothin'
Is gonna keep me from loving you
(From lovin' you)

Got a long way,
Mountains up ahead,
I don't give a damn what the world says
I'm gonna do what I was born to do
No turnin',
No runnin',
Nobody, no nothin'
Is gonna keep me from loving you
(Keep me from loving you)

Mmm...
