

Lovin' You Lovin' Me

Chris Cagle

Look at me
And tell me what you want is what you see
Hold me close
And make it feel like you won't ever let me go
Give me some kind of sign to show me that you fell the same way
I do inside
Because I'm

Lovin' you, lovin' me
Girl, I'm so into, right now I can barely breathe
You're all that I'll ever need
So kiss me, like it's our last
Take me away and darling, don't bring me back
Because I'm lovin' you, lovin' me
It's so nice
When we're alone and your eyes dance with mine
And it tastes so sweet when you lay those lovin' lips on me
It feels good, solid and strong
And I'm crazy about the way that things are moving along
Because I'm lovin' you, lovin' me
Girl, I'm so into you right now I can barely breathe
You're all that I'll ever need
So kiss me, like it's our last
Take me away and darling, don't bring me back
Because I'm
Lovin' you, lovin' me
Girl, I'm so into you right now I can barely breathe
You're all that I'll ever need
So kiss me like it's our last
Take me away and darling, don't bring me back
Because I'm lovin' you, lovin' me
