

## Bridle On A Bull

Chris Knight

Don't put a bridle on a bull  
He'll never do what you want him to  
Don't put a bridle on a bull  
He'll just take you for a fool  
And if you take him by his horns  
That bull will run right over you

That ol' mule don't wanna plow  
Talk to him with a two-by-four  
And if he still don't wanna plow  
Talk to him just a little bit more  
And if he just don't wanna listen  
Haul him off to the dog food store

Don't put a bridle on a bull  
He'll never do what you want him to  
Put a bridle on a bull  
Ain't no tellin' what the bull will do  
And if you take him by his horns  
He's gonna try to run you through

Got a high toned woman  
Keep your one eye on the door  
Got a high toned woman  
Make you wonder what your suitcase is for  
She gonna worry about where you goin'  
Then she don't need the house no more

Put a bridle on a bull  
He'll never do what you want him to  
Don't put a bridle on a bull  
He'll just take you for a fool  
Put a ring in his nose  
That bull'll follow you

Put a ring in his nose  
And that big bad bull will follow you
