

# Cowboys Like A Little Rock And Roll

Chris LeDoux

Well now cowboys love the ladies  
They like beans and sourdough  
Good horses and hot black coffee  
And campfires burnin' low  
You know we love that cowboy music  
But I'll bet you didn't know  
That even cowboys like just a little  
Rock and roll

Even cowboys like a little bit of rock n roll  
Yeah we all got some boogie woogie in our soul  
There's a little bit of Buddy Holly  
(ChuckBerry) (Charlie Daniels)  
In every cowboy that I know  
And even cowboys like a little bit of rock ann roll

Now when your camped out on the prairie  
And that ole moon is shinin' bright  
You can hear those cattle bawlin' soft n low  
There's nothin' like a cowboys song to make it all feel just right  
But even cowboys like a little bit rock and roll

Even cowboys like a little bit of rock n roll  
Yeah we all got some boogie woogie in our soul  
There's a little bit of Buddy Holly  
(ChuckBerry) (Charlie Daniels)  
In every cowboy that I know  
And even cowboys like a little bit of rock ann roll

Now those old buckaroos are set in their ways  
And they'll even tell you so  
Say they don't like nothin' but them old time cowboy songs  
Yeah but I've seen the green grass growin'  
Underneath that winter snow  
I'll bet them old cowboys even like a little rock and roll

Even cowboys like a little bit of rock n roll  
Yeah we all got some boogie woogie in our soul  
There's a little bit of Buddy Holly  
(ChuckBerry) (Charlie Daniels)  
In every cowboy that I know  
And even cowboys like a little bit of rock ann roll

Yeah there's a little long hair  
In every single cowboy that I know  
And even cowboys like a little bit of rock n roll
