## **Searching For A Rainbow**

**Chris LeDoux** 

(Put your hands together and start making some noise And let's do the same when we get them on stage Ladies and gentleman let's give it up for the wild and wooly sa ddle boogie band)

I rode in to town today in my mind I said Lord I'd love to stay Somethin' in me said boy move on Don't know what it is Lord blessed it in my bones And I'm searchin' for a rainbow and if the wind ever shows me w here to go You'll be waitin' at the end and I know And I'll say to hell with that pot of gold I'll say to hell with that pot of gold

This old mount I'm ridin' is gettin' kinda tired But in my heart he knows there's just one desire He's gonna take me to the end of the road And he'll lay down and die and I'll say God rest his soul And I'm searchin' for a rainbow... And I'm searchin' for a rainbow... I'll say to hell with that pot of gold
