

If You Ever Leave

Chris Mann

Ever since I met you
No I can't forget you
And I don't ever want to
I finally believe in something
More than me
The more I see
I'm in love, mmh

I never knew a stranger
Could ever be an angel
And I wanna make sure
That you'll never have a worry
'Cause to me
The more I see
I'm in love

If you ever leave
I don't think I could live through it
If you ever leave
Oh baby, no, don't you do it
I want you to stay
And let me hold you forever, mmh
No don't say goodbye
My tears, they won't dry
If you ever leave

I love it when you're resting
Right up on my chest and
I'm feeling every breath babe
Like the ocean you just
Lift the weight off me
The more you breathe
I'm in love, eh

'Cause I've been waiting all my life
To see your face
If you reach for me
Oh, I'll be there always
The more I see
It has to be
I'm in love, eh

If you ever leave
I don't think I could live through it
If you ever leave
Oh baby, no, don't you do it
I want you to stay
And let me hold you forever, mmh
No don't say goodbye
My tears, they won't dry
If you ever leave

I know a day will come
When you won't need me anymore
And the moment that happens
Don't you look backwards
'Cause I'll be with you

Every step of the way

If you ever leave
I don't think I could live through it
If you ever leave
Oh baby, no, don't you do it
I want you to stay
And let me hold you forever, mmh
No don't say goodbye
My tears, they won't dry
If you ever leave

No don't say goodbye
My tears, they won't dry
If you ever leave
