

# A Beautiful World

Chris Norman

Tell me you're leavin' as you slam the door  
You say it's got you beat  
I sit and wonder what you're waiting for  
Workin' both sides of the street  
You got your alibis, I've got mine  
We can take the easy way out  
How can we make it, if we both stop tryin'  
That's not what this is all about

And I can't stop you now  
You can go where you want to go  
Can't I find a way to let you know

That it's a beautiful world  
A beautiful night  
Why don't we take it easy  
Why do we have to fight?  
So lay down here beside me  
My beautiful girl  
Won't you let me make it right now?  
It's a beautiful world

I know there's things about me you can't stand  
I hear it often enough  
I know it's lonely with a travelling man  
I know it gets pretty rough  
But when I'm out there doin' my job  
Out on the avenue  
Then you ain't there baby, somethin' gets lost  
I get lonely too  
Well I can't stop you now  
You can go where you wanna go  
Can't I find a way to let you know?

That it's a beautiful world  
A beautiful night  
Why don't we take it easy  
Why do we have to fight?  
So lay down here beside me  
My beautiful girl  
Won't you let me make it right now?  
It's a beautiful world

And when I roll back home and you're not there  
This is one big empty city babe,  
No love left in the air, anywhere

It's a beautiful world, a beautiful world,  
Why don't we take it easy, my beautiful girl
