

Big Chance

Chris Norman

Up town, down town everybody turn around
Record breakers, fortune fakers
Ice cream dancers run around chancers
Looking for a headline, giving me a hard time
My, my, my - bye, baby, bye

Come here, go there - still got the same hair
MTV girl - living in her own world
Overblown deejay - listen what the man say
Backstage divas when they gonna leave us
My, my, my - bye, baby, bye

Things I wont forget,
This will be your
Big chance, no chance its the only chance you get
Look out baby oh youre gonna get yours yet

Chinese takeaway feel I gotta breakaway
Rollercoaster got my own toaster
Telephone Ina anybody seen her
Living in your own dream listen to the crowd scream
My, my, my - bye, baby, bye

Things I wont forget,
This will be your
Big chance, no chance its the only chance you get
Look out baby oh youre gonna get yours yet

Big time egos standing on your tiptoes
Tune in turn on - acting like a Don Juan
Telephone speakers attention seakers
Feeling like a oddball staring at the same wall
My, my, my - bye, baby, bye

Things I wont forget,
This will be your
Big chance, no chance its the only chance you get
Look out baby oh youre gonna get yours yet

Things I wont forget,
This will be your
Big chance, no chance its the only chance you get
Look out baby oh youre gonna get yours yet ...
