

Chain Reaction

Chris Norman

Come on and give me some satisfaction
I want your lovin' and I need it now
You gonna start a lot of chain reaction now

Oh, I guess that you know
You look at me and my resistance is low
I walk around and I'm out of my sleep
You're so indifferent that it's hard to believe
This kind of passion is so hard to control
Baby, take my heart and my soul

Come on and give me some satisfaction
I want your lovin' and I need it now
You gonna start a lot of chain reaction now

You don't know what it's like on the outside
Oh, I give you everything but you run and hide
Well, I got my feelings and it's all for you
So baby, you can feel it
And if you want it you can take it, take it back

Come on and give me some satisfaction
I want your lovin' and I need it now
You gonna start a lot of chain reaction now

Come on and give me some satisfaction
I want your lovin' and I need it now
You gonna start a lot of chain reaction now

Chain reaction, chain reaction...
