

# Close To You

Chris Norman

With your long black hair and your dark brown eyes  
I watched you walk in the room  
The band was playing some rock'n'roll  
Or some forgettable tune

Well my hands were cold but my heart was warm  
I knew what I had to do  
I made my mind up there and then  
To try to get close to you

Close to you and your smile  
And the way that you looked for a while  
The way that you cared  
Close to you and your touch  
And the way that I want you so much  
The way that I do  
Well maybe I'm crazy or maybe I'm just running scared

Well you walked right in and you sat right down  
And ordered something with ice  
I wandered slowly across the room  
You didn't look at me twice

But I held my breath when you spoke to me  
And asked if I wanted to dance  
It was a way to get close to you  
So I thought that I might take a chance

Close to you and your smile  
And the way that you looked for a while  
The way that you cared  
Close to you and your touch  
And the way that I want you so much  
The way that I do  
Well maybe I'm crazy or maybe I'm just running scared

Well we danced some more and we talked a while  
Until the evening was late  
Then I took you home and you held my hand  
We said good night at the at the gate

But you turned around to invite me in  
I didn't know what to do  
Guess I was just too frightened, girl  
To try to get close to you

Close to you and your smile  
And the way that you looked for a while  
The way that you cared  
Close to you and your touch  
And the way that I want you so much  
The way that I do  
Well maybe I'm crazy or maybe I'm just running scared
