

# I Will

Chris Norman

We're lying in the afterglow  
I feel your heartbeat next to mine  
Treasuring every breath you take  
I'll love you 'til the end of time

Oh I will, I will, I will  
I will baby you know that I will  
Love you

I'm sitting in the afternoon  
I see the sunlight on your face  
Worshipping every move you make  
I know I'll never leave this place

Oh I will, I will, I will  
I will baby you know that I will  
Love you

I'm writing down these words for you  
To show exactly how I feel  
There's nothing I wouldn't do for you  
My love for you I can't conceal

Oh I will, I will, I will  
I will baby you know that I will  
Oh I will, I will, I will  
I will baby you know that I will  
Love you  
Oh I will, I will, I will  
I will baby you know that I will
