

Let's Get Real

Chris Norman

Dreaming, scheming waiting always wanting more
Hoping, praying sometimes feeling insecure
Searching down the line wondering what's on each
Others mind
Just for once let's say how we feel
Baby let's get real

Heartfelt meanings, sometimes misunderstood
And jealous feelings always turning bad from good
Searching down the line wondering what's on each
Others mind
Just for once let's say how we feel
Baby let's get real

Let's get real and talk about it
Maybe we can work it out
So open up and tell me how you feel
Let's get real don't walk around it
Baby what's it all about
Oh, oh, oh, let's get real

Taking chances keeping feet on solid ground
It's making good sense never losing what we've found
Searching down the line, wondering what's on each other
mind
And just for once let's say how we feel
Baby let's get real

Let's get real and talk about it
Maybe we can work it out
So open up and tell me how you feel
Let's get real don't walk around it
Baby what's it all about
Oh, oh, oh, let's get real

Oh baby let's get real
