

Love You Heavy

Chris Norman

You know that I want you
You know that I need you
I don't wanna live without you
Ooh you got a way about you

And I been alone for so long
Now the summer's here and winters gone
So I just gotta say to you
I want you to know, love you heavy

You know I love your attitude
You really got me in the mood
I gotta deal me a better hand
No, no it ain't a one night stand

And there ain't a drug that's strong enough
There ain't a cure for this kinda love
Cos I love everything you do and
Baby you know, love you heavy

So tell me your mine all mine
As long as stars above
Oh I got me a girl so fine
I'm getting ready for this thing called love

You know that i want you
You know that i need you
I don't wanna live without you
Ooh you got a way about you

And I love the things that you say
Your kind of love really blows me away
And this time baby love is true and
Baby you know love you heavy

So tell me your mine all mine
As long as stars above
Oh I got me a girl so fine
I'm getting ready for this thing called love

You know that I want you (early in the morning)
You know that I need you (later in the evening)
I don't wanna live without you
Ooh you got a way about you (and I think about you everyday)

And I been alone for so long (yeh I hang on every word you say)
Now the summer's here and winters gone (baby over you)
So I just gotta say to you

I want you to know, love you heavy
Baby you know, love you heavy
